### QUALITY IS THE FIRST CONSIDERATION IN BUYING A WATCH.

When a man gets a watch he wants a good one, and one that will last a lifetime and always be on the dot. The complexity of modern civilization makes it often a matter of money and sometimes of life and death, that people should be on time.

## REGINA WATCHES

Are designed to meet the demand for accurate and durable time pieces—and they do. No detail of their construction has been left open to criticism—in fact they are made a little better than seems necessary. But merit will win in the long run, and Regina Watches, being universally guaranteed, will stand the test of time. Come in and let us tell you more about them.

Certainly.

### Conservative Smoker Big Success

The first shot of the campaign took place Thursday evening last, when a most enthusiastic Conservative smoker was held in the Odd-fellows' Hall by supporters of A. A. McMillan. The hall was crowded to the doors by a jovial and enthusiastic crowd of workmen, railway men and leading citizens. F. H. Tallman, president of the local association, occupied the chair in a most efficient manner, and stirring addresses were given by W. E. Payne and E. G. Johns, and songs were given by Fred Castle, E. G. Johns and others. E. Walton and Byron Geisinger presided at the piano. There was a splendid step dance rendered during the evening that pleased the crowd immensely. The meeting closed with the National Anthem.

### Leslieville

The timothy hay crop is fine in this district.

Don't forget Labor Day, Sept. 4th, at Leslieville.

The Prairie School opened August 14, with Miss Patterson as teacher.

The dance which was held in the Prairie School on Friday, 18th, was not a very good success, owing to the scarcity of the fair ones.

The annual picnic of Bethel Union Church and Sunday School will be held on Labor Day, Monday, Sept. 4th, on the Leslieville grounds, at 1.3 p.m. There will be all kinds of fun for everybody. A refreshment booth will be on the grounds, where all kinds of sweets may be bought. Supper will be served on the church lawn at 6 p.m. There will be a concert in the evening. Everybody come and have a good time. Ladies please bring lunch baskets.

### Ridgewood Presbyterian Church

A vocal recital will be given in above church on Friday, September 1st, at 8.15 o'clock, by Miss Scott (soprano) and Mr. Wm. Scott (baritone). The programme will consist of selections from the standard operas. Folk songs, and "Jubilee" and altogether the evening promises to be a musical treat. Refreshments will be served, and the admission is the nominal fee of 25c.

This will be the last opportunity of hearing Mr. Scott's repertoire, as he leaves for the east in a few days. The recital will take place, whether the weather is favorable or not.

### Pre-Historic Remains

H. F. Osborne, President, Madison Grant, Secretary of the New York Zoological Society and Chairman of the Executive Committee, and Barnham Brown, Associate Curator of the American Museum, all of New York City, are in Red Deer. Mr. Brown spent last summer on the Red Deer river collecting fossils, remains of pre-historic animals, etc. Mr. Osborne and Mr. Grant have come on here to see the result of his work. The pre-historic remains they are investigating is some thirty feet in length and has a duck bill. It is supposed to be over two million years old. Mr. Brown has found petrified flies, showing this was at one time a tropical country and that it may have been the garden of Eden.

### An Interesting Freak

A peculiar potato was brought to Mr. Davison last week. This potato apparently wanted to be a little unusual, and instead of the tubers growing underground from the roots they grew on the stalks above ground. Perhaps the old saying that the seed was planted upside down would not be misapplied in this case.

### A MEAN LAW Canadian Lake Steamers to be Debarred from Carrying Passengers to American Ports.

(Montreal Witness) Detroit, August 18.—The United States Department of Commerce and Labor yesterday issued a circular letter to all collectors of customs of the great lakes calling attention to the law which forbids Canadian excursion vessels from transporting passengers from American ports to Canadian ports or from Canadian to American ports and back.

### The Car Shops

Sir Thomas Shaughnessy, President of the C.P.R., is some west in a few days, and it is said he will then state definitely where the car shops will be.

People smile when the News talks car shops, but the location has not been settled yet, that is one thing. Medicine Hat is out of the running as another point; and if Calgary is so awfully sure of them, why are the papers talking so much?

Why has the C.P.R. obtained control of so much land on the hill in Red Deer—a strip of land about a mile and a half long and half a mile wide?

Why should the shops be built in Calgary in preference to Red Deer?

We have already shown that the most direct route over the Alberta Central Railway, a link of the C.P.R. system, from New York, Chicago and St. Paul, through the Yellow Head Pass, on the continent of America, and that the grade is the best crossing the mountains.

We have drawn attention to the fact that Red Deer is the nearest town to the great Brazeau coal fields; deposits of coal that cannot actually be estimated, but the greatest known to this continent.

What would these coal fields be to the C.P.R. in their great extremity now. They could smile at the world, strikes in general.

We have shown Red Deer is more central than Calgary, and is fast coming into prominence in the councils of the C.P.R.

The longer Sir Thomas holds of announcing where the shops will be, the better will be Red Deer's chances.

We do not believe the location of the car shops will be known just yet.

### MARRIED.

On August 17th, 1911, at the home of the bride, by the Rev. C. W. G. Moore, rector of Red Deer, Clement Powell, second son of the Rev. H. Walter Brock, S. Pierre du Bois, Guernsey, to Kathleen Maud, eldest daughter of Mr. Wilson Ritson, of Brookley, Alaska.

At the Presbyterian Manse, Red Deer, on August 25th, by the Rev. W. G. Brown, Miss Alice May Macdonald to Mr. Charles Bernhardt Nelson, both of Red Deer.

### DIED.

At Red Deer, on Friday, Aug. 25, George Elmer Beno, aged 3 years and 9 months. Interment took place on Saturday from Stone's undertaking parlors, Rev. Brown officiating.

At the Red Deer Memorial Hospital, Tuesday morning at 2.20 a.m., Arthur Beno, aged eleven months and three weeks. The funeral will take place today from Stone's undertaking parlors. Rev. Brown will officiate.

Mr. and Mrs. Beno have the sympathy of the community at large in their double bereavement.

Mrs. Jarvis will open up her fall clothing establishment on Sept. 11th and 12th, one door east of Mr. Hall's store up-stairs.

### Young Men's Club Formed

A most enthusiastic meeting was held on Monday evening at the Methodist Church, with the result that a Young Men's Club has been formed. The following officers were elected:

Hon. Pres.—E. Michener, Esq. M. P.

President—H. H. Gaetz

1st Vice Pres.—E. M. Wilson.

2nd Vice Pres.—H. Wallace.

3rd Vice Pres.—J. R. Davison.

4th Vice Pres.—W. B. Galbraith.

Secretary—Clarence Markle.

Treasurer—Dr. McKenzie.

Finance Committee—Dr. McKenzie, Rev. Pearson, E. M. Wilson.

Equipment Com.—W. B. Galbraith, Rev. Pearson, H. Wallace.

The musical and religious end of the work will be looked after by E. M. Wilson; literary by Harry Wallace; social, sickness, employment and rooms by J. R. Davison; athletics by W. B. Galbraith. An orchestra will be formed with B. W. Allen as leader, particularly strong athletic committee has been chosen, as it is expected this club will be heard from in all the important athletic meets in Alberta. Shower baths and individual lockers are to be installed at once, and the rest of the equipment will be placed as soon as it is received. At present the spacious basement of the Methodist church will be the quarters of the club. The organization is to be non-denominational, and is open to all. The following is the constitution:

1. This organization shall be known as the Young Men's Club.

2. Its object is the fostering of Christian manhood by means of physical, social, mental and spiritual culture.

3. The officers shall be elected annually at an open meeting in April, and shall consist of Honorary President, President, four Vice Presidents, Secretary and Treasurer.

4. The above shall constitute the executive committee, four of whom shall constitute a quorum.

5. The officers shall be elected by ballot on the nomination of a committee of three, appointed by the executive, of whom the pastor shall be one. The nominations may be added to by any member of the club at the meeting for the election.

6. Departments: 1. Christian manhood; 2. literary; 3. social, sickness and employment; 4. athletics. The chairmanship of each of the departments shall be held by one of the Vice-Presidents.

7. Finance, membership and other committees may be appointed at any time as required. Appointments to be made by the executive.

8. The annual fee for membership shall be five dollars.

9. There shall be a sustaining membership with a fee of five dollars.

10. The minimum age for membership shall be sixteen years.

11. The pastor shall be an ex-officio member of all committees and shall be a member of the executive.

### Correspondence

To the Editor of The News.

Dear Sir,—I should like to ask, through your paper, why it is necessary every first day of each shooting for certain parties to come out from Red Deer and act like a bunch of outlaws? Last year they shot over my land, leaving all the gates in my horse pasture open, not bothering themselves whether I should have to ride a week after my horses or not. This year they camp in one of my hay quarters, where I had about 75 loads of hay stacked, leaving all the gates open again, and for cattle to come in and pull all the stacks about. They are a narrow minded and short sighted bunch; in a very few years the land will be taken up and fenced, and the farmers and ranchers won't have them on their land, with the result: there will be no shooting for them, whereas if they acted in a decent, fair minded way, the farmers would only be too glad to see them out and having good sport. After Aug. 26th, 1911, any persons found shooting on S.E. 36-37-26, W. of 4th; N.E. 25-37-26, W. of 4th; N.E. 30-37-25, W. of 4th; S.W. 32-37-25, W. of 4th; will be prosecuted.

J. F. EDGE PARTINGTON, Hillsdown.

## HUNTERS! LOOK AT THIS

## BRITISH BORN OPPOSE PACT

Manifesto of the British-Canadian  
Association—Must Preserve the  
Channels of Trade

The newly-formed British-Canadian  
Association, Toronto, has issued the  
following manifesto:  
"Accepting Sir Wilfrid Laurier's  
statement that reciprocity with the  
United States is the supreme issue in  
the general election, we would urge  
all who believe that Canada may  
achieve first place within the British  
Empire to vote against the confirmation  
of the reciprocity agreement as  
being opposed to the object for which  
the association was formed: viz., 'to  
promote, especially among those of  
British birth and origin, the sense of  
Canadian nationality as an increasing  
power within the British Empire, and  
to preserve and extend the Canadian  
and British channels of trade on which  
the prosperity of the Dominion has  
been founded.'"

"The election is the most important  
in Canadian history. The intention of  
the United States, as declared by Pres-  
ident Taft, is to obtain commercial  
union with Canada and to prevent a  
commercial union within the British  
Empire. Canada has become a nation,  
in spite of her geographical unity with  
the United States, because of her  
commercial independence. Sir Wilfrid  
Laurier has repeatedly asserted that  
the policy of reciprocity with the  
United States was abandoned, and  
that a governing condition of Canada's  
development was the growth of inter-  
provincial and inter-British trade."

"We believe the reversal of this  
policy at the invitation of the United  
States is dangerous to the vital inter-  
ests of Canada. We believe that, in-  
stead of serving the interests of the  
Republic, with its vast population,  
its greater variety of resources, and  
its desire to overthrow the promi-  
nence of inter-British trade, the duty  
of Canada is to continue developing  
her resources, and strengthening the  
national and imperial aspirations of  
her people in her own way, so that,  
regarding her own interests as para-  
mount, she may attain a position of  
unique dignity and power among the  
nations of the Empire and in the Eng-  
lish-speaking world."

"We would, therefore, earnestly  
urge our compatriots throughout Can-  
ada to join in defeating the agreement  
which is proffered by the United  
States, and to this end would re-  
quests to the secretary for litera-  
ture and offers of co-operation in hold-  
ing meetings and forming branches  
of the association where the British-  
born gather together."

**GEORGE GORDON**  
Who carries the Conservative standard  
in Nipissing.

### BIG BILL AND HIS LARIAT

The Intelligent Heifer—Soon Made  
Holes in the Band

Cow-boy Taft spied Flinging and  
Paton alone, and he pulled the  
two Tenderfeet in.  
When he brought them to hand, he  
look them into his cabin and treated  
them white, and gave them the Time  
of Their Lives.

He said, "Boys, I need that young  
Heifer Canada, of the John Bull herd.  
She's ably with Stronger, but she'll  
at out of hand for you fellows. When  
I throw out my lariat, carry it to her  
and slip it over her horns, giving her  
to understand it is for her good."  
The Tenderfeet gave him their hand  
on it, and soon the little Government  
band was in the Pasture, carrying Salt  
to the Heifer.

Big Bill threw out his lariat, but  
the circles didn't work, and the loop  
did not settle round the cat's neck.  
Says Big Bill to the Band, "I say,  
you there, get busy and put the noose  
over the critter's horns. I have the  
Branding Iron ready to put the mark  
"U.S." upon her."

"Sure," answered the Herdman,  
"she'll put her Neck in it for us."  
But the Heifer dodged, and made it  
plain that she was onto the Game.  
Says Laurier, "It's no Row, we're  
trying to put on you. We're trying to  
decorate you with a well Surcingle,  
that will make you the Belle of the  
Continental Fair."

But the Intelligent Heifer perceived  
that the thing had a Slipknot on it,  
and that it was intended for her Neck.  
This got her going, and she made  
Furrows in the clothes and person of  
the Tenderfeet, and gave Big Bill a  
Rip, and put them all out of Business.  
—Mail and Empire.

Into Canadian Wheatfields  
Hon. Ed. L. Hamilton, of Michigan,  
in an anti-reciprocity speech in Con-  
gress, said: "Mr. James Hill's railroad  
runs into the wheat fields of Canada,  
I understand, and Mr. Hill and his fol-  
low hangers are content."

## A VIRGINIAN.

He Suffered In the French Revolu-  
tion, but Took His Revenge.

By KATHLEEN J. M'CURDY.  
(Copyright, 1910, by American Press Asso-  
ciation.)

At the close of the war for American  
independence a young Virginian, Sidney  
Pyle, who had served as a soldier in the  
army of the patriot army, visited  
Paris. He was handsome, wealthy and  
a fine swordsman.

Among the ladies with whom Sidney  
Pyle came in contact was the young  
Countess Amelle de Carpielle. Be-  
tween him and her instantly sprang up  
an ardent love.

Already the rumblings of the com-  
ing French revolutionary storm were  
beginning to be heard. The king, feel-  
ing less his people should throw off  
his yoke as they had thrown off that  
of their own sovereign, began to look  
out for those bent on fomenting re-  
bellion. Americans, who up to this  
time had been looked upon with favor  
by royalty, the nobility and the peo-  
ple, were now viewed with suspicion  
by the government. A few days be-  
fore the wedding of Sidney Pyle and

DEVOY THE POINT OF HIS WEAPON INTO  
HER ARMED HEART.

The Countess Amelle de Carpielle the  
groom to be was arrested and taken to  
the Bastille.

Had it been his part alone to dis-  
cover the nature of the accusation that  
led to his imprisonment he would never  
have been informed. Through the  
girl he was to have married he learned  
that he had been accused of circulating  
documents calling the attention of  
the French people to the advantages  
of a form of government similar to  
that recently inaugurated in the United  
States. His accusers were, first, the  
Marquis de Beauchamp, who had been  
a tutor for Amelle's hand; second,  
Charles de Fories, whom Pyle had  
beaten with foils at a fencing tourna-  
ment before the court; third, Jean de  
Pavannes, who had insulted Pyle for the  
purpose of drawing him into a duel,  
intending by trickery to kill him. The  
motives of the three men were not  
made entirely clear or why they con-  
spired together, but it was evident  
that Beauchamp had been the prime  
mover.

Pyle languished in prison several  
years. He heard little from the out-  
side, but what he did hear was that  
the Countess Amelle was secretly true  
to him. It would not be safe for her  
to express herself, so far as he was  
concerned, openly. He also heard that  
the discontent among the people was  
daily growing. Then it reached his  
ears that the guards protecting the  
Bastille were being greatly strengthened.  
One day he heard indications of  
commotion without—shouts, musketry,  
cannon. Then came sounds of the  
breaking down of doors and finally a  
wild, demoniacal throng entered, shout-  
ing:

"You are free!"  
Sidney Pyle before his incarceration  
had been full of kindness for all  
around him. He left the Bastille con-  
sumed by a thirst for revenge. One  
feeling alone at first dominated him—a  
desire to learn if the woman he loved  
was in danger. Quickly he discovered  
that her father, who was a staunch  
royalist, had taken his family across  
the border, making, with a few others,  
a nucleus for that multitude of emigres  
which followed.

Pyle, having been a political prisoner,  
had nothing to fear from the revolu-  
tion. Indeed, he was carried out  
on the shoulders of the mob and amid  
their acclamations. Had it not been  
for purpose he had in view he might  
have been tempted to become one of  
the leaders in the cause of freedom.  
But his purpose now that he knew the  
countess was safe kept him in another  
channel. His object was to find the  
whereabouts of the three men who had  
conspired against him. Jean de Pavannes  
was the only one of the three who had  
remained in Paris. He had joined the  
revolutionists and was a power among  
them. The other two, being royalists,  
and known to have been the cause of  
the imprisonment of many persons on  
accusation of disloyalty, had gone to  
Reims.

Pyle's first intention was to settle  
with De Pavannes. But an open attack  
upon a man who was daily sending

people to the guillotine would only re-  
sult in disaster. Such a course was  
not to be thought of. Pyle learned that  
his enemy was accustomed at  
night to frequent a certain cafe. He  
would leave it at a late hour and walk  
to his home on Montmartre. One night  
Pyle appeared in this cafe. De Pavannes  
was there talking to an excited crowd  
that had gathered about him on the  
events of the revolution. He was a  
violent Jacobin and was denouncing  
the conservative Girondists.

It was 2 o'clock in the morning  
when De Pavannes started for home.  
Pyle followed him a few moments, wait-  
ing the man he sought until the two  
were alone in a narrow, deserted  
street at the base of Montmartre. Pyle  
walked directly behind De Pavannes till  
the latter not relishing any one at his  
back, turned. Pyle stopped.

"Who are you, and what do you  
wish?" asked De Pavannes.

"I am Sidney Pyle of Virginia, whom  
you imprisoned on a false accusation,  
and I wish to kill you!"  
Each wore the sword commonly  
carried at the time, and each drew. Pyle  
during his imprisonment had lost both  
strength and skill, but he had not lost  
this move till he had recovered both.  
De Pavannes had been known as one of  
the best swordsmen in Paris, but he had  
a bad reputation owing to certain  
foul thrusts he had made in his duel.  
Pyle went at him with the coolness of  
a devil and in a few seconds ran him  
through the heart.

The Virginian did not stop to call  
attention to his adversary's dead body,  
though he left his mark—a Y—with the  
point of his sword on De Pavannes' breast. The next morning he procured  
a horse and set out for Belgium, with  
the intention of paying a visit to  
Charles de Fories, a meeting with  
whom Pyle related more than with  
his late victim, since there was no re-  
volution to interfere with his design  
across the border. Reaching Brussels,  
he found a crowd of emigres and was  
not long in discovering that De Fories  
was among them.

The evening at an entertainment  
given by the Duke of Orleans, Pyle  
saw his enemy standing by a table  
with another person, the two pledging  
each other in a glass of wine. De  
Fories sipped his wine and set the  
glass on the table. Pyle sauntered up,  
took the glass in his hand and threw  
the contents in De Fories' face.

De Fories, glaring like a tiger, put  
his hand to his sword, but, remember-  
ing where he was, refrained and said:  
"Your name and where are you to  
be found?"

"My name is Sidney Pyle of Vir-  
ginia, and a message will reach me at  
the Bastille."

At the name De Fories, who had  
failed to recognize his antagonist,  
stared.

"Very well," he said. "We shall see  
if you are still the swordsman you  
were."

The next morning soon after dawn  
the two men met, and ten minutes  
after they had crossed swords Pyle  
drove the point of his weapon into his  
enemy's heart. When the assassin  
saw the victim's clothing he found on  
the spot where the sword  
had entered cut in the flesh the letter  
V.

Pyle now made inquiries for the man  
who he felt sure had been the head  
and front of the conspiracy that had  
thrown him into prison on the eve of  
his intended marriage. The other two  
he considered mere tools of the Mar-  
quis de Beauchamp. The Virginian  
learned that his enemy was living at  
the Hotel de la Reine. He went to the  
way to the marquis' abode. One  
evening when De Beauchamp was sit-  
ting in his private apartment opening  
up on a balcony a man suddenly ap-  
peared standing in the window that  
reached from the ceiling to the floor.

"Who are you?" cried the marquis,  
"and what do you do here?"

"I am Sidney Pyle of Virginia, late  
prisoner in the Bastille, and I am here  
to have it out with you for putting me  
there."

Pyle's sufferings in prison had left  
their imprint on his features. De  
Beauchamp saw there a hungry look,  
a hunger for revenge. Though the  
royalist had escaped the Paris mob,  
ravenous for bread, this embodiment  
of a spirit of revenge had followed  
him. For years when a man had  
stood in his way he had but to throw  
him into prison and the obstacle was  
removed. But now comes one of his  
plotter, one who had brought with him  
from the colony of the English  
Virgin queen that thirst for freedom  
which had stemmed the current of  
granny. The marquis saw in that  
merciless face a sign of his final pun-  
ishment.

"Do your work," he said. "I am un-  
armed."

"I am no murderer."

In a corner stood a rapier. Pyle  
took it up and handed it to the mar-  
quis. The latter rose, and, passing to  
a portion of the apartment where  
there was more room for a passage at  
arms, each took position and began to  
fight.

A few minutes later a servant, hear-  
ing the sound of a fall, entered the  
chamber for revenge. Though the  
floor, blood oozing from his side.  
No one was visible. A surgeon, being  
called, on examining the wound found  
that the skin near the heart the  
letter V.

One morning the Countess Amelle de  
Carpielle, living in poverty in London,  
was surprised at the appearance of  
Sidney Pyle. She saw in his face the  
marks of suffering which had spoken  
so remorselessly to his last victim.  
Pyle took her as his wife to his pla-  
tation in Virginia, and the pleasant  
life they led there gradually effaced  
the horrors they had suffered in their  
youth.

WANTED.—Gentleman roomer want-  
ed by family in south end of town.  
Apply at News Office. Aug 2

ESTRAY MARE.  
Came onto my premises in July,  
two miles north of Red Deer, and  
seven miles and a half north-  
east of Red Deer, a brown mare,  
branded something like JX, the sec-  
ond eye might be an open scissor.  
The owner can have same by paying  
expenses. HENRY DENNISON,  
Red Deer, Aug. 14th, 3w.

GAETZ AVE. NORTH

## TOWN COUNCIL

The regular meeting of the Town Council was held on Thursday evening last, with His Worship Mayor R. B. Waller in the chair, and Councillors Gaetz, Menzies, Galtz, Malcom and Alford in Attendance.

### CORRESPONDENCE

Auditor Allen reported that he had audited the books and found them correct.

A petition was received from citizens owning property abutting on Holt Avenue, asking for a concrete walk on said street on west side from Mann Street to Alexander Street. Referred to commissioners.

The village of Munsee was asking for information re single 4x4s.

A fire alarm system company desired to install a system in Red Deer. Filed.

Cushing Bros. asked permission to move a line shed. Referred to Commissioners with power to act.

The Secretary-Treasurer asked permission to close Town offices Saturday afternoon at one o'clock for the next two months. Allowed.

W. A. Moore, manager of the Western Electric Co., wrote the Council stating he would like to address the council in committee with regard to possible purchase of plant by town. It was decided to hear Mr. Moore later on in the evening.

### COMMISSIONERS' REPORT.

The Commissioners brought in the following report:

The medals provided for the Boy Scouts by the Town are on hand. We understand the Alexandra Club purposes holding a garden party for the boys at an early date, at which the medals can be presented. We urge the members of the Council to be on hand at the place selected to assist in the presentation.

After discussing with Mr. Davidson, Publicity Commissioner, and getting information from the hotels on the question of accommodation for the U.P.A. convention to be held in January, we decided that we would undertake to provide sufficient accommodation. We have notified Mr. Bower to that effect.

Chief Meeres asked permission to go to Edmonton last week to over a fire alarm system they have there in the exhibition grounds. We authorized him to go, and submit his report herewith.

We have had all the plank walks inspected and repaired when necessary. Work has been started on the new plank walks to be built this summer.

We recommend that we be authorized to have the Park Superintendent of Calgary visit Red Deer for several days in the near future to look over our parks with a view to having a detailed plan made. We were informed by the Mayor and Chairman of Parks Commission that they would have no objection to his coming.

The report of the M.H.O. for July shows one case of typhoid. This was the only case of contagious or infectious disease.

We have had Holt Ave. graded from in front of the Massey-Harris building to Morrison St. and Morrison St. to Gaetz. Later it will be necessary to put some gravel on these streets.

The drinking fountain purchased by the young people has arrived and should be set up as soon as possible. Mayor Waller believes it should be placed on Ross Street between Gaetz and Holt Ave., as this is where the most traffic is. Commissioner Menzies believes it should be set up on Ross St., opposite the Dominion Land Office property, for the following reasons:

(a) The fountain will be used more by farmers and teamsters for watering their horses than by people, in which case it will be a block farther.

(b) Should it be placed near the corner of Gaetz or Holt, where the traffic is most congested, there would always be a danger of autos coming suddenly around the corner and frightening horses drinking at the trough.

(c) If placed about the centre of the block this would not apply.

(d) A team standing watering would be almost certain to get into the street, and this would, to a certain extent, block traffic.

(e) It would naturally interfere with the convenience of the merchant, whose store it would be in front of, and also of his customers, who would wish to drive up to the curb in order to let their ladies out on the walk and to take delivery of their goods. The delivery rigs of the merchants also drive up to the curb in front of the store to load up.

(f) When the C. N. R. station is built on Ross Ave. the traffic will build up eastward on Ross Street, and within a few years the location suggested will no doubt be more in the centre of traffic than at present.

As the fountain is to be a permanent affair this should be considered.

(g) The congestion of traffic between Holt and Gaetz on Ross has increased rapidly and we must consider that it will keep on increasing and that in time street cars will be running on our streets. When that time comes the congestion in front of stores will be more than in front of a vacant frontage like the Dominion property.

We would ask you to determine the location and to authorize us to have the fountain set up as soon as possible.

We have had petitions for some extensions of sewers and watermain lately. It does not appear at all possible to attempt any more work this year. In fact it will be impossible to complete the work promised and provided for in the money by-laws. There has been a scarcity of men all summer. We are going to put on another gang next Monday, and if necessary get some men from outside, but even at the best it will be hardly possible to get finished unless we have a late freeze.

up, with more favorable weather than we have had in the past.

The construction work to be done yet, and for which money has been provided and material ordered, is as follows:

In Town, old limits.

Sewer, Nanton Ave., days, 10

Finishing sewer to hospital, days 14

Sewer, Gaetz Ave., days, 7

Watermain, power house to Gaetz, days, 5

Watermain, Nanton Ave., days, 7

Watermain, East Ave., days, 5

Watermain, Holt Ave., days, 10

Watermain, Flower St., days, 5

This is for a full gang of men. Watermain, around Hillcrest and Woodlee, full gang 43 days.

Sewer tank, 8 men, 28 days.

Building plank sidewalks, 4 men, 28 days.

Graveling streets, 6 teams and 4 men, 20 days.

Altering valve boxes, etc., 2 men, 10 days.

Installing concrete, 3 men, 30 days.

This time is not making allowance for unforeseen delays such as striking rock or water, as we did on the last two extensions.

We submit for your authorization to pay accounts certified correct.

We submit for your consideration by-laws to raise the sum of \$9,000 for purchase of park and \$10,000 for purchase of exhibition buildings. These are the ones that are required to be revised.

Some discussion took place as to the location of the drinking fountain.

It was finally decided to have it placed on Ross Street, opposite the Dominion Land Office. Councillor Menzies dissenting, as he thought it should be on Holt Avenue.

The report was adopted.

### ACCOUNTS.

The following accounts were authorized to be paid:

G. Leeper, \$25.02; A. Beauvois, \$28.05; Merchants Bank, \$149.30; A. W. Tancock, \$6.43; Herald W. J. Co., \$38.25; Ash Lee, \$9.00; H. Meeres, \$5.85; Canadian Pacific Railway, \$10.00; W. Scott, \$5.40; Wage Sheet No. 3, \$40.00; Mr. Smith, \$28.00; Wage Sheet No. 4, \$43.10; Crown Construction Co., \$303.84; Great West Lumber Co., \$31.50; Dr. H. H. Garg, \$6.00; H. J. Small, \$43.00; Manitoba Bridge Works, \$10.50.

By-laws 244 and 259 were repealed.

By-laws 272 and 273 were repealed.

A first and second time will be submitted to the people.

These by-laws are to raise the sum of \$9,000 for purchase of a park and \$10,000 for purchase of exhibition grounds, as the original by-laws were defective and had to be revised, owing to the fact that the park was extended over a period of 30 years, whereas by-laws of this nature can only be made repayable in 25 years.

W. A. MOORE.

W. A. Moore, manager of the Western Electric Company, was then asked to address the Council with regard to purchase of the company's interests in Red Deer.

Mr. Moore stated that he knew if the Town desired to negotiate for the plant. The company had invested a large amount of money over a space of several years. This should be of interest. They have always striven to give a good service. They had to fight for the franchise.

These have a very good service. The company's revenue has increased in proportion to other business firms of the town. If the Town are prepared to consider the franchise of the company and entertain a fair rate, then there is a chance of getting together and talking business. The company is willing to sell but not anxious.

The company can see where they can use their money to advantage or they would not think of selling.

Mr. Moore said that the company will pay handsome dividends in the near future. Questions will arise in the future which will be complicated. For instance, the company claims a right to electric lights and power, and this, in his opinion, cover street railway, and the town will need a street railway.

Mr. Moore said that the company and the town will need a street railway together, and the values are any way near other, there will be a good chance of arriving at an agreement.

Mr. Gaetz said if the basis of settlement was too large, then of course we could hardly adopt it. On the other hand we should be generous.

Mr. Moore said that the company would be willing to refer the question to a committee to report to the Council.

Mr. Moore said in the past the town had been a burden on the stockholders. This year it will be on the other side.

Councillor Menzies thought all differences that have arisen in the past should be eliminated. We must look at the proposal from a purely business standpoint, and give the company every consideration. It is the big question to discuss at this Council, and he would like to see a committee appointed to deal with it.

Mr. Moore said they might take a list of the company's assets and discuss them point by point, and he would be willing to make the Council and discuss all the different items.

Councillor Menzies asked how long it would take to give a full estimate of which the company would be willing to do.

He could give such information at once, but he would first want to know that the Council had information that would qualify them to at least be able to judge of the value of the plant so that they would not consider the selling price exorbitant.

The Mayor said he had hoped the company could give us a price for the plant. He was going to feel like trusting to his judgment for the value of the unexpected period of the franchise, or the plant, as it stands today. He would rather get the company's figures than submit

same to an expert for his opinion.

Councillor Menzies said the only thing the committee could do would be to arrive at a common specific basis with the company which could be submitted for consideration to the Council.

A committee consisting of the Commissioners and Councillors Gaetz and Menzies was appointed to confer with the Western General Electric Co. and to report to the Council.

The meeting then adjourned.

## IMPETUS TO THE STATES

Reciprocity Would Be a Great Thing For Uncle Sam

The Philadelphia Press says: "As the President warns us, the present opportunity may never come again. He speaks by the card when he reminds us that the forces which are at work in England and Canada are not the Dominion and the United States commercially apart would be an impetus from the respective countries to accomplish now. The duty of the Senate is clear. The majority of that body—a Republican majority—could commit no graver blunder, political or economic, than to refuse to respond to the call of the President and of the country to make the most of this opportunity."

It is finally decided to have it placed on Ross Street, opposite the Dominion Land Office. Councillor Menzies dissenting, as he thought it should be on Holt Avenue.

The report was adopted.

These by-laws are to raise the sum of \$9,000 for purchase of a park and \$10,000 for purchase of exhibition grounds, as the original by-laws were defective and had to be revised, owing to the fact that the park was extended over a period of 30 years, whereas by-laws of this nature can only be made repayable in 25 years.

W. A. MOORE.

## FREE ACCESS TO OUR RESOURCES

New York Times Says the States Must Have Raw Material

The New York Times is very candid. It says:

"Reciprocity is the beginning of a policy that will powerfully protect the natural resources of our country, to the conservation of which the nation has devoted years of study and is preparing to expend many millions of dollars. Our growth has been so rapid that we have only lately begun to understand its effects. A score of years ago we still looked upon these resources as practically boundless and their exploitation as the sure means of incalculable prosperity. Within ten years we, as a nation, have come to know that their limits are quite within our grasp and that our constant and swiftly advancing demands are outgrowing the certain supply. The agreement with Canada offers us free access to resources comparable to our own before our tremendous growth encroached upon them. To refuse this would be as much as an act of folly as for the commander of a beleaguered city to decline convoys of provisions."

It is finally decided to have it placed on Ross Street, opposite the Dominion Land Office. Councillor Menzies dissenting, as he thought it should be on Holt Avenue.

The report was adopted.

These by-laws are to raise the sum of \$9,000 for purchase of a park and \$10,000 for purchase of exhibition grounds, as the original by-laws were defective and had to be revised, owing to the fact that the park was extended over a period of 30 years, whereas by-laws of this nature can only be made repayable in 25 years.

W. A. MOORE.

W. A. Moore, manager of the Western Electric Company, was then asked to address the Council with regard to purchase of the company's interests in Red Deer.

## TO INVADE CANADA

A General Plan to Go After Canadian Trade

Has "the boss" been eyeing you keenly of late, apparently weighing your capabilities and your value to the firm? If so he probably has slated you for a possible position as one of the army of Minneapolis salesmen that will invade Canada if the pending reciprocity treaty is adopted.

Though Minneapolis already has a large selling force in Western Canada and though many firms will increase their forces only slightly, the smaller firms plan to branch out and go after the trade that would result in Minneapolis becoming a still greater whole.

No time is to be lost in having the reserve force all ready "to shoot" into the new trade territory to win laurels for themselves and dollars for Minneapolis and her enterprises.—Minneapolis Tribune.

Mr. G. B. Nicholson, Chaplain

"For more than thirty years we have gone about following a policy of delay and maintaining our own resources without regard for the actions of other people, and who will say we have not been successful? Should the proposed agreement be ratified, possibly three-fourths of the Canadian farmers will receive slightly increased prices for their products, and the minority will lose more than the majority will gain, and at the same time every consumer will pay more for the necessities of life, and thousands of men engaged in the transportation business will be thrown out of employment by the diversion of traffic from east and west to north and south, and the transference of profitable terminal trade from Canadian to United States centers."

A. C. McCall, of St. Catharines

"I am not an alarmist, but if the agreement goes through we fruit-growers are going to be injured for some time to come. I am a Liberal and I have always voted for the present Government. This matter, however, personally concerns me and all the men throughout the district. We have planted our orchards with an idea of our own Canadian Northwest and we are now to be sold to the United States market. We will take a great deal of time and money considerable loss to us. Then if the minority will lose more than the majority will gain, and at the same time every consumer will pay more for the necessities of life, and thousands of men engaged in the transportation business will be thrown out of employment by the diversion of traffic from east and west to north and south, and the transference of profitable terminal trade from Canadian to United States centers."

This matter, however, personally concerns me and all the men throughout the district. We have planted our orchards with an idea of our own Canadian Northwest and we are now to be sold to the United States market. We will take a great deal of time and money considerable loss to us. Then if the minority will lose more than the majority will gain, and at the same time every consumer will pay more for the necessities of life, and thousands of men engaged in the transportation business will be thrown out of employment by the diversion of traffic from east and west to north and south, and the transference of profitable terminal trade from Canadian to United States centers."

A. C. McCall, of St. Catharines

"I am not an alarmist, but if the agreement goes through we fruit-growers are going to be injured for some time to come. I am a Liberal and I have always voted for the present Government. This matter, however, personally concerns me and all the men throughout the district. We have planted our orchards with an idea of our own Canadian Northwest and we are now to be sold to the United States market. We will take a great deal of time and money considerable loss to us. Then if the minority will lose more than the majority will gain, and at the same time every consumer will pay more for the necessities of life, and thousands of men engaged in the transportation business will be thrown out of employment by the diversion of traffic from east and west to north and south, and the transference of profitable terminal trade from Canadian to United States centers."

A. C. McCall, of St. Catharines

## Annual Convention

The convention recently held by the Alberta Funeral Directors' and Embalmers' Association was one of the best attended conventions ever held in Calgary and was most successful.

A large number of new members were enrolled, and sixteen wrote for diplomas, twelve of whom were successful. The highest mark awarded was 95, and the lowest 75, 75 being the minimum.

The convention, which was held in the banquet room at the city hall, lasted three days, the election of officers for the following year taking place on the last day with the following results:

President—A. W. Kelly, High River; Pres.—G. E. Bowler, Ponoka; 1st Vice—J. M. Connelly, Edmonton; 2nd Vice—A. D. Sharp, Wetaskiwin; Sergeant—R. W. Shoop, Bassano; Sec. Treas.—H. G. Stone, Red Deer.

# WOODLANDS!

5 Acre Blocks.

Three-quarters of a mile from the town of Red Deer.

HIGH, DRY, BENCH LAND.

Direct road through subdivision to town. These 5-acre blocks will subdivide into about 50 lots.

\$175 and \$200 per acre. Terms—One-third down, one-third in 12 and 24 months.

Mrs. A. R. Stent and Fred L. Ray, Props.  
Greene & Payne, Trustees.

### DECEIVING THE PEOPLE.

The Grain Growers' Guide, Macleod Advertiser, and other Liberal papers claim that R. L. Borden is fighting for the manufacturers and special interests. This is false; he is fighting for the interests of the people. Sir Wilfrid Laurier, Hon. Mr. Fielding and Hon. Mackenzie King have all informed the manufacturers that they do not intend to do them any harm by lowering the tariff, that they should be thankful to them that they have been so kind to them, and give them their support. To prove this we quote Mackenzie King's own words: "It is not the intention of the Government to make any further tariff changes. I cannot make that too clear. If it had been the intention of the government to reduce the duties on manufactured articles it would have been done when the Americans came to us asking for that. To say that the government intends such a thing and that this is only the thin end of the wedge is absolute nonsense."

### THE UNITED STATES TRUSTS.

After exhausting the natural resources of the United States, the gigantic trusts of that country have determined to obtain control of the magnificent natural resources of Canada, and they are therefore favorable to reciprocity. Not only this, but they are sending into Canada millions of dollars to help out the Laurier government in its efforts to strangle the natural sentiment in our young country and to buy up the people with American dollars. Every vote for Clark is a vote for the trusts.

Every sheep and every pig brought into the country now pays a dollar a hundred pounds duty, and still three-fourths of our bacon and most of our mutton is brought in from the United States. Farmers will, therefore, lose one dollar on every hundred pounds of pork and mutton he has to sell the moment reciprocity comes into effect.

The farmer must remember that, although he will, under the pact, be able to sell his raw products in the U.S., our neighbor to the south of us has more than she can use of these very things, and there will be twelve of these very farmers who will be able to send their goods into Canada for every Canadian farmer who can send his stuff into the United States. The 90,000,000 people will have a preponderance that will swing 8,000,000 from Canada into national oblivion.

The Liberal press of Alberta has stated that Lloyd Harris, the popular and efficient Liberal member for the city of Brantford in his last parliament, was turned down by the Liberal party because he would not favor reciprocity. This statement is false and most contemptible. Mr. Harris was tendered the Liberal nomination if he would oppose reciprocity, and he refused. Then he was tendered the nomination by a large majority of the delegates present

at the convention, and given a free hand, and he still absolutely refused to accept the nomination. "The convention then failed to nominate a candidate, broke up in disorder, and the nomination had to be postponed for several days to select his successor."

Hon. Joseph Martin, M.P. for St. Pancras, London, Eng., and former Attorney General of Manitoba, said in a recent speech in Winnipeg, "that Sir Wilfrid Laurier, during the last ten or twelve years, has given Canada the worst administration in the whole world. I know there is more corruption in Canada today than there ever has been. A verdict in favor of the government in the present election would mean continuation of this state of affairs." Vote for McGillivray and a clean government.

Dr. Clark says Englishmen make very poor farmers, and it takes them four years to learn to milk a cow. He knows from personal experience. The Dr. must have been joking when he stuck out his chest on the floor of the House of Commons and said he was somewhat of a farmer himself.

The Advocate doubts if Arthur Powne wrote the letter in last week's News. We will call that bluff, and say that if the editor will come to our office and bring a witness, we will take great pleasure in showing him the original document.

J. F. Day, who owns nearly two sections of land, and is one of our most prominent, prosperous and progressive farmers, says horses will go down 30 per cent. and sheep \$1.25 per head should reciprocity come into force.

Under reciprocity Russian barley will swamp the Canadian market, as under the favored nation clause free United States barley also means the removal of the thirty-cent duty on Russian product.

It is about time another vote of thanks was tendered Dr. Clark for the post office boxes at the station. Small favors thankfully received, should be the motto of the Liberal party in the Red Deer constituency.

The Lacombe Globe, one of the strongest Liberal papers in the province, and a supporter of Dr. M. Clark last election, has come out in open hostility to him, owing to his neglect of the riding. There are others.

What benefit would the farmers derive from free trade in pork, as the Advocate tells us, three-fourths of our bacon supply is now brought in from the United States?

How can the U.F.A. support Dr. Clark after his statement that they were worse than a bunch of Socialists for asking for terminal elevators?

What benefit will reciprocity be to Alberta as everything we have to sell to the United States is higher than it is there?

When Dr. Clark said Mr. Bower and the other farmers were a lot of Socialists, Mr. Bower heard his master's voice and said not a word.

Don't let Laurier finish his work.

## THE CONVENTION

From the Lacombe Globe (Liberal)

As decreed by those in charge of the machine, M. Clark, who has for the past few years masqueraded at Ottawa as the representative of the Red Deer constituency, was boosted through the Liberal Convention held at Red Deer on Friday last, and will be the candidate all good Liberals are instructed to support at the polls on September 21.

A more unpopular selection, throughout the greater portion of the Red Deer riding, could not have been made, and we think this will be forcibly impressed on those responsible for his selection when the ballots are counted.

As a representative for Red Deer or any other constituency, M. Clark must prove a failure. Aside from his gift of words he has not one qualification necessary in a representative. He is an animated chunk of egotism, and is not satisfied unless he can make the person with whom he comes in contact bow down to him as the great I AM. The only interest he has in life is in M. Clark. Where there is nothing that will directly benefit him, there he will not be found. Which accounts for the shameful way in which he overlooked the interests of the northern part of his constituency during the three years he has been Member for Red Deer.

In the last election M. Clark received the undivided support of the Liberals in the Lacombe and Ponoka Districts, as well as all along the Stettler branch of the C.P.R. The residents of these districts had reason to believe that their interests would have been well looked after by him.

The town of Red Deer and other settlements south were not very unanimous in his favor in the same election, in fact had it not been for the vote received in the north Clark would not have been compelled to neglect the steers and calves on his farm for the past three years.

Then the census came in sight, and in view of the fact that it would be, in the natural course of events, from the south end of the constituency he would require the votes after redistribution took place, M. Clark set about making himself solid with his erstwhile enemies.

He went at the work in what he considered a very able manner. He worked on any little jealousy that might exist between rival towns in the north and south. Any little slight that he could give those in the north he did not overlook. At Red Deer, Lacombe was the home of a nest of grafters. At all points where he thought a knock at any other north town would do him good, he administered the knock. He said in effect that as he had no more use for our votes his interest in us was dead. And he thought he could count on a solid south!

But the fates were unkind to M. Clark. Redistribution did not come as expected, and, much to his sorrow, he is once more compelled to seek the votes of the electors in this shamefully slighted part of his constituency. He may rest assured that any chance to defeat him will not be overlooked by Liberals and Conservatives alike. It will take a greater pull than reciprocity to carry a man like him to victory at the polls.

We want a representative who will represent.

## THE STRANGER AMONG US.

From the Lacombe Globe (Liberal)

Dr. Clark, the Liberal candidate for Red Deer, is appealing to the electors of the riding to send him back to Ottawa. Although he has represented this riding for several years he is still a stranger, and is appealing as such. Who in the north part of the riding have seen their representative since they sent him to parliament? Practically none. What has he done for the north part—or the south either, for that matter?

He has talked, yes, he has talked a lot, but deeds have been as scarce as hens' teeth. It is nice to hear a man tell what he is going to do for you, but it is disappointing when he does nothing after volunteering promises of good deeds. In these days people expect men to keep their promises, they describe a man who breaks promises as an unsuitable person—to put it mildly. He was elected to look after the interests of the riding. He has had three years in which to show results, and he has failed.

Of course, columns of his verbal donations have appeared in the newspapers, but how many of his deeds have we read about?

Deeds? They do not go with words, and M. Clark has fed us on words, represented us in the name of words, ignored us. How many times in his three years of office has he stopped at Innisfail, Lacombe, Ponoka, Stettler, or Castor?

Dr. Clark is an utter stranger; we saw him when he asked us for our vote in 1908, we have not had the privilege since until this election time came. Then, like the bad penny, Dr. Clark reappeared, as "promising" as ever, as keenly anxious for our regard, looking a little smoother and better groomed as would naturally come to a man who had experienced three years in Ottawa with nothing to do, but just the same Dr. Clark, a man who loved his constituents just according to the measure in which they supported him. Does the voting public of Red Deer want four years more of non-representation at Ottawa? If so vote for Clark.

## THREATENS BRITAIN'S FOOD SUPPLY.

The Evening Globe (London, England), commenting upon the proposed reciprocity between Canada and the United States, says that "the Imperial government has deliberately assisted in the conspiracy to give the United States something like a corner on trans-Atlantic wheat."

"When," says the Globe, "Americans have firmly established themselves in Canada and are passing Canadian wheat through the Minneapolis mills, the English market will be at their mercy. Our workers are grumbling at the rise in food prices even now, when the independence of Canada's source of supply is operating to keep prices down."

"If the great American trusts succeed in making this source subordinate to their interests, the British food supply will be seriously threatened."

## MR. BOWER'S LETTER

In another column Jas. Bower, president of the U.F.A., tackles Arthur L. Powne for his level-headed letter of last week. He begins by saying he hasn't seen a reasonable argument against the pact as yet. Of course Mr. Bower has been "reading the Grain Growers Guide and Liberal papers. He and his Liberal friends have certainly failed to put up any kind of an argument in favor of their contention. Farmers who own say eight horses will lose \$50 a horse, or \$400 first slap, the day reciprocity comes in force. They will lose a dollar a head on every hog and every sheep also. We have stated over and over again we have higher prices for these things, and Mr. Bower knows it.

Mr. Bower speaks of the high price of cattle and says it is due to the fact that there are no cattle left in Alberta. This is not correct, as statistics show we have more cattle in Alberta than ever before. He first sets up this straw man and then pounds it to smithereens, like a good many more men of his type who are busy in this campaign for the government. This one point took up most of his letter and therefore there is very little more to it. Mr. Powne is one of the best known and level-headed cattle men in Alberta, and he has not got to take a back seat to Mr. Bower when he discusses beef prices.

## HORTICULTURAL SOCIETY

### Holds Successful Show

Red Deer and the Horticultural Society are to be greatly congratulated on the marked success of the Society's first annual exhibition which was held in the spacious and comfortable quarters of the Alberta Garage Co., on Wednesday. Considering the fact that the President was away in Ontario, and the Vice-President was sick, it is greatly to the credit of Secretary Davidson, Mr. A. W. G. Allen, Mr. G. W. McKenzie, Mr. Brumpton, Mr. A. R. Gibson and others who gave assistance that the affair came off so well. The Society were greatly encouraged by the wide interest and the large attendance by the commendatory words of the judges, and intend to make the most valuable work of beautifying the town even more general than this year. There were over 50 exhibitors with some 350 entries.

The chief features of the show fell to Mr. W. A. Moore and his collection of lovely blooms. Mr. Henderson, on the W. E. Lord grounds, and Mr. Lord came in for first prize for their new lawn and Mayor Weliver for his care of trees planted this year. Mr. Lord's, Mr. Brumpton's and Mr. R. L. Gault's lawns were very highly commended.

But even greater praise must be given to the folks who looked after their own places, and who worked hard and late to keep things neat and tidy. Mr. and Mrs. R. B. Woodworth's lawn and garden were

a model of patient care, the judges said, and that Mr. Woodworth only came one point behind Mr. Moore for the best laid out and cultivated grounds was a very high standing. Mr. James Baird had a very fine display of flowers in beds and borders, as well as a large number of individual prizes, had a striking example of what enthusiasm and wise care will do, even if some other advantages are denied. Mr. Baird had given great care to his vegetable garden, and the result must have been very gratifying to him. The result of the efforts of Mr. Woodworth, Mr. Baird, Mr. Henderson, Mrs. Stent, Mr. Cole, and others who held their own with the best of them, and will encourage others to do likewise. The boys and girls did not get very much in line this year but they have seen what can be done and will be heard from next year. There were some most lovely flowers shown. The pansies and sweet peas were in profusion, and the dahlias, poppies and stocks were outstanding. The infinite color groupings of the pansies and sweet peas show to what perfection these dainty flowers have been brought.

There was a very good showing of vegetables also. The potatoes were a good size and will come to good quality; the beets and carrots were good and the cucumbers and peas creditable. Mr. G. H. Hutton, of Lacombe, the judge in this department, was especially pleased with Mrs. L. Horne's (Horn Hill) black and red currants. They were of fine flavor and of good quality, and the red currants were of large size. Mr. Hutton believes they show the great possibilities before this country, even in cultivated fruit.

Mr. Ramsey, of Edmonton, Judge and Mrs. Lees of the Town Park, and others contributed flowers and vegetables for exhibition only, which added their share to the interest of the show.

Mr. Burrows, of Calgary, the judge in his evening address, spoke with

much effect to a large audience. He was very much pleased with the Show and with the town. He believed they could make it the most beautiful city in the West, as they had advantages not possessed by many places. The cultivation of trees, flowers, and garden; the beautifying of their town, would repay them a hundredfold in actual money value. Let alone the beauty side of it. They should make it a civic affair; they should try and get everybody interested in Calgary; they could grow the whole lot practically of any eastern seed house. A hot bed of their own, with their storm windows, would give them a splendid start in the spring and some sturdy, adaptation, and work would bring great results. They should not become a little bunch of faddists, but every citizen should be interested and helped; he should be educated to see the value to his family, to his property, to the town, of well cultivated trees, lawns, and gardens. Mr. Burrows gave many technical hints as to how to improve lawns. A good many lawns were spoiled by allowing the earth thrown up from cellar excavation to remain in it in time would starve the grass. Mr. Burrows urged the town authorities to get after the weeds on the streets and in neglected property; they become a burden to other people.

The presence of the Band added much to the evening's enjoyment.

Mr. Davidson said it was the intention of the Society to bring in more trees—balsams, spruce, birch and perhaps elms, and he urged the citizens to plant for them. The Society would hold two or three meetings this winter, with illustrated views, to promote wider interest in town beautifying. They had secured a number of blue prints of houses which could be built economically and yet would add beauty to the town. The matter of heating economy had been carefully studied. Visitors were already re-

350 Cases Crawford Peaches to go at - \$1.35 case  
25 doz. Green Corn to go at - 5c cob

WE HANDLE ALL KINDS OF FRESH FRUIT & VEGETABLES

Today the trend of migration is northward. There are two very prominent facts Canadians must remember:

One is—that Canada can, if it remains true to its destiny, become a greater nation than Britain, than Rome, than any people in history.

The other is—that our neighbors know it, and they are selfish enough to want to prevent it.

If reciprocity goes through, we will have settled our future fate.

We are now at the parting of the ways.

## Eckville

Rev. E. Heaven, Church of England, will preach here Sunday at 11:30.

Chas. Snell and Mrs. M. J. Snell were in Eckville last week.

Harold Forham is visiting his brother here.

Mr. and Mrs. Dan Clausen have been away visiting friends.

We had a little rain here last week.

Boost for McGillivray and help bust the trusts.

## Horticultural Society

(continued from page 4)

marking on the improvement of the Town was making in beauty and home likeness, and they wished to continue the good work.

The awards for best cultivated grounds were (maximum 50 points):

W. A. Moore ..... 38  
R. B. Woodworth ..... 37  
W. E. Lord (Henderson) ..... 34  
R. C. Brumpton ..... 34  
H. L. Gaetz ..... 30

Class 1.—Amateurs only.

Grand Aggregate—The largest number of first prizes in at least three classes. Trophy valued at \$25.00 donated by E. Michener, Esq., M.P.P. This trophy will become the property of the holder if won three consecutive years by one person. Won by W. A. Moore.

For the best laid out, kept and cultivated grounds to include lawns, trees, shrubs and flowers in beds and borders. Trophy valued at \$10.00 donated by H. J. Snell, Esq., Jeweller, open to all. Also won by W. A. Moore.

The best cultivated trees as a result of the present season's efforts—variety, arrangement and cultivation. Trophy donated by R. C. Brumpton, Esq., valued at \$10—R. B. Welliver W. E. Lord.

The best cultivated lawn as result of the current season's efforts W. E. Lord, Mrs. Rutherford.

The best display of flowers in beds and borders.—John Reid, Mrs. Stent.

The best composite garden.—Flowers, vegetables, etc., not less than 500 square feet in area.—W. A. Moore, W. E. Lord.

The best cultivated vegetable garden.—James Baird, W. A. Moore.

The best pair of window boxes filled with flowering plants.—Imperial Bank.

Class 2.—Cut Flowers.—Amateurs only:

Floral design.—David Gibson, Mrs. W. D. Scott.

Bouquet of garden flowers.—Jos. Cole, Mrs. A. R. Stent, Mrs. L. Hornett.

Bouquet of wild flowers.—Mrs. G. W. McKenzie, David Gibson.

Six Asters.—Mrs. W. T. McKinnon, John Reid.

Twelve Asters.—A. B. Nash, W. A. Moore.

Collection of Pansies.—W. A. Moore, Jos. Cole.

French Marigolds.—John Reid.

Pinks, single.—W. A. Moore, R. C. Brumpton.

Pinks, double.—W. A. Moore, R. C. Brumpton.

Collection of Nasturtiums.—R. C. Brumpton.

Dahlias.—W. A. Moore.

Collection of Stocks.—W. A. Moore, John Reid.

Sweet Peas, six.—W. A. Moore.

Sweet Peas, twelve.—John Reid, S. D. Hayden.

Bouquet of Sweet Peas.—J. Halstead, W. A. Moore.

Collection of Poppies.—Mrs. A. R. Stent, Jos. Cole.

Collection of Nasturtiums.—R. C. Brumpton.

Brumpton.

Collection of garden flowers, named W. A. Moore, H. Meeres.

Plants, flowering only, in bloom.—R. C. Brumpton.

Geranium, any other variety, in bloom.—H. Meeres, 2nd.

Fuchsia, in bloom, single.—H. Meeres.

Asparagus Plumosus.—Mrs. A. R. Stent.

Native Fern.—H. Meeres.

Plant, any variety.—Jos. Cole.

Specimen of foliage plant, any variety.—S. D. Hayden, Mrs. A. R. Stent.

Class 3.—Fruit.—Amateurs.

Black Currants.—Mrs. L. Hornett, W. A. Moore.

Red Currants.—Mrs. L. Hornett, Jos. Cole.

White Currants.—Mrs. L. Hornett, Jos. Cole.

Red Raspberries, cultivated.—W. A. Moore.

Rhubarb.—Ada Dale, Kate Allen.

Class 5.—Vegetables.—Amateurs.

Wax Beans.—W. T. Coote, F. S. Simpson.

Peas.—W. A. Moore, David Gibson.

Caulliflower.—John Reid, Kate Allen.

Conical Cabbage.—John Reid, W. T. Coote.

Flat Cabbage.—A. R. Stent, John Reid.

Carrots, short.—James Baird, W. T. Coote.

Radish, round.—David Gibson.

Radish, long.—David Gibson.

Celery, white.—W. A. Moore, David Gibson.

Onions from seed, white.—W. A. Moore, Jas. Baird.

Onions from seed, red.—Jas. Baird.

Pickling Onions.—David Gibson, John Reid.

Shallots, in cluster.—David Gibson.

Onions from set.—A. B. Nash, Jas. Baird.

Vegetable Marrows.—A. B. Nash.

Cucumbers, (out door).—L. J. Porter, W. A. Moore.

Cucumber, (frame).—Mrs. L. M. Rutherford, A. B. Nash.

Green Tomatoes.—A. B. Nash.

Beets, long.—David Gibson, Jos. Cole.

Beets, round.—Jos. Cole, F. S. Simpson.

Parsnips.—Jos. Cole, W. A. Moore.

Garden Turnips.—David Gibson, F. S. Simpson.

Sweet Turnips.—Jos. Cole, David Gibson.

Round Potatoes, white.—James Baird, F. S. Simpson.

Round Potatoes, colored.—Jas. Baird.

Kidney Potatoes, white.—David Gibson, Kate Allen.

Kidney Potatoes, colored.—Mrs. J. Brimble.

Collection of Potatoes.—Thos. Hodgson.

Collection of herbs, parsley, etc.—F. S. Simpson.

Collection of Salads, lettuce included.—F. S. Simpson.

Lettuce, cos.—Jos. Cole, A. B. Nash.

Lettuce, cabbage.—Jos. Cole, W. A. Moore.

Lettuce, curled.—Jos. Cole.

Plate of cooked Potatoes.—David Gibson, Kate Allen.

Collection of Vegetables.—W. A. Moore, David Gibson.

One of the special features shown was Luther Burbank's "Wonderberry," a kin to the Blueberry, and a good preserving fruit, which Mr. A. B. Nash has grown for two years. Mr. Nash is enthusiastic over it, as a great cropper. It has to be got in early to mature fully.

## A Growing Industry

A representative of the News recently paid a visit to the factory of the Freytag Company in North Red Deer, and was surprised at the amount of work done by the firm, which is, as yet, in its infancy, having only been in existence a few months. While seriously inconvenienced and held back by delays in deliveries of equipment and material, a good start has been made. The first output of cow and horse hides is finished, and a great many more are in various stages of curing and are going through as fast as the conditions will permit. It is astonishing to the uninitiated how beautiful cattle and horse hides can be made if dressed properly, the hair clean, silky and glossy, the hide extremely light and pliable, and as soft to the touch as fine chambray. A stock of imported robe linings is also shown, heavy plushette in plain colors and flowered designs, which are far ahead of any shown here before. It is the intention of the company that only the very best of linings should be used with such stock as is put out by them. The style of dressing employed by the company originated in the States quite recently, and is the very latest thing in the tanning industry. In the Western States the tanning business runs into the millions of dollars each year, and it was but a question of time as to when this industry should cross the line and get a foothold in Western Canada. This time has arrived, and Red Deer has got an industry which we may well feel proud of. Already shipments of hides and skins have been received from such distant points as High River, Sedgewick, Medicine Hat, etc., while enquiries are continually coming from as far south as the international boundary, and from as far east as Saskatoon, which proves that Red Deer is getting a lot of publicity. That the manufacturing of these goods for the market at large offers great possibilities is shown by the fact that an unsolicited order was received last week amounting to one thousand dollars. Mr. E. Wermischer is expected to arrive from Milwaukee next month and upon his arrival the manufacture of fur coats, mittens, caps, etc., from the already finished hides will commence. The indications are good for a rapid and healthy growth, which will help to make Red Deer known as the place where they "do things."

# THE W. E. LORD COY.

## BUY YOUR BOY A SWEATER COAT

### BOYS' SWEATER COATS

In heavy worsteds of many colors and combinations of colors, both with and without pockets, and in all sizes. Just the thing for everyday wear during the fall and winter. Prices start from 90c.

**Are Your Kidneys Working Properly?**  
 It Will Pay You Well to be Sure  
 There's been a lot of "muzzing" about  
 rheumatism and rheumatic pains generally,  
 but you can be dead sure that little  
 pain across your back came from de-  
 creased kidney action.  
 The kidney's duty is to filter the blood  
 —take out the impurities, collect by  
 the returning blood stream—do it just  
 the absent cotton in a filter, and filter  
 the impurities from polluted water.  
 When the kidneys are not working you  
 are bound for two courses—Diabetes  
 and Bright's Disease or Rheumatism,  
 Lumbago and Sciatica. The former  
 course is usually fatal, and the latter  
 always painful, but you need not have  
 either, as they both can be easily pre-  
 vented.  
 The very best prescription for all kid-  
 ney troubles is Nyal's Stone Root Com-  
 pound. It is no "patent" medicine, but  
 a scientific prescription composed of  
 Stenon, Rhuco, Juniper and other  
 remedies of proved value. More than  
 that, it has been proved by thousands  
 who have had relief from its use.  
 There's nothing quite so miserable as  
 the dragging results of sick kidneys.  
 You are trilling with your own future  
 when you neglect so simple a precaution,  
 as a pleasant home treatment with Nyal's  
 Stone Root Compound when results are  
 so certain.  
 It soothes bladder irritation, gives  
 you rest and comfort at night, and makes  
 life once more enjoyable.  
 The kidney, liver and bladder are all  
 dependent upon one another, and Nyal's  
 Stone Root Compound is particularly  
 designed to help them all.

Sold and guaranteed by  
 The Gazette-Drugg & Book Co., Ltd., and  
 Gordon B. Parker, Red Deer.

 rights of our clients. We are  
 experts in all matters relating  
 to Patents. Preliminary advice free. Charges  
 reasonable. Mr. J. H. GAZET, 100, New York  
 St., Montreal and Washington, D.C., U.S.A.

we finally settled in Toronto, and  
 that in six years I have travelled a  
 hundred and forty thousand miles be-  
 tween Halifax and Victoria.  
 Of deliberate choice, then, I brought  
 my family to Canada. They do not  
 go back to the land of their birth.  
 We do not speak of England as  
 "home." This is our home. We  
 do not think of the old country as  
 being consecrated by the advent of a  
 little Canadian-born girl, who began  
 her studies in both the land of her  
 birth. She will be able to sing of  
 Canada as her native land. I am  
 glad of it. You see, we combine the  
 British-born and the Native-born.  
 And behold it is good—very good.

**Canadian Nationality**  
**In Double Harness**  
 By ARTHUR HAWKES.

You cannot wisely consider Cana-  
 dian nationality without keeping in  
 the front of your mind the division of  
 Canadian nationality into two classes—  
 help being Canadians and those who  
 could—the native-born and the immi-  
 grant.

Don't be scared by the immigrant.  
 It is bad for you and worse for him.  
 He is not a danger to you, and he is  
 the immigrant host and the country  
 just because you hired a green  
 Englishman from a city, who didn't  
 know how to put a collar on a horse.

Perhaps you never saw a Doukhobor  
 or a Galician, or a representative of  
 a Ruthenian. Thousands of these are  
 Canadian citizens just as much as you  
 are, you lucky great-grandson of  
 great-grandfather of a United Empire  
 Loyalist.

They will vote on Reciprocity two  
 thousand miles from where you are.  
 One of these days a full-blooded Doukhobor  
 will sit in the House of Com-  
 mons. I have an excellent friend in  
 the Saskatchewan Legislature—a  
 Ruthenian—who couldn't speak a  
 word of English a few years ago. It  
 isn't far, you know, from the Assembly  
 to the Commons. The Chairman of  
 the Legislative Commission of Pro-  
 vince of Saskatchewan is a German  
 who came from the Fatherland to  
 Minnesota, was naturalized and  
 elected a senator, left Minnesota for  
 Saskatchewan, and was naturalized  
 again.

The largest place of public assembly  
 in Port Arthur is owned by Iceland-  
 ers. In Vancouver I could take you  
 to a Chinese theatre where two per-  
 formances daily are given. The Jap-  
 anese almost as numerous as the Chinese  
 in the salmon fisheries of British Col-  
 umbia. The Hindu's turban has  
 become a commonplace on the Pacific  
 Coast.

Down in Nova Scotia travellers not  
 infrequently bump heads with a  
 going to Canada, when they mean  
 to go to another province in the confederation  
 of which Nova Scotia has been a con-  
 stituent for forty years. On the prairies  
 you will find a foreign flag exalted, I  
 think almost as numerous as the Chi-  
 nese in the salmon fisheries of British Col-  
 umbia. The Hindu's turban has  
 become a commonplace on the Pacific  
 Coast.

I hope to be quite humble in ex-  
 pressing this answer, because I've had  
 worthy people come to me and say,  
 "We have found that British people  
 are not welcomed here, and we want  
 to speak the truth in love. Personally  
 I have never felt the slightest re-  
 sistance in Canada. Many years ago I moved  
 from the South to the North of England,  
 and fell over my nose on the ground  
 of the "Treat that I have ever  
 felt north of the St. Lawrence."  
 Yes, thank you, the immigrant  
 since I landed at Quebec, twenty-six  
 years ago, have I said a word against  
 conditions in Canada? No, because  
 I have been so personally that I  
 could resent. But there are others.  
 I know better than I have, who as  
 his wife, began life in Ontario on a  
 farm. They are the people who do  
 good to others and who are already  
 better off than they ever hoped to be.  
 They are the people who are  
 because they were continually subjected  
 to nagging about their nationality.  
 For the sake of others they were called  
 "chippers" and other names.

You asked us to come. The Govern-  
 ment has spent millions of dollars  
 in inducing British-born people to  
 forsake friends and homes and  
 traditions and places consecrated  
 by sacred dust, and help to build up  
 Canada. The Dominion has become  
 prosperous because of the assistance  
 the chipper, as well as the capitalist,  
 has arrived. Never forget, brother,  
 that he is a benefactor to the country,  
 through such people as Lord Strathcona  
 and Sir Wilfrid Laurier. These great  
 men have looked for assets for  
 Canada, for an impetus to your pro-  
 perty. Be gentle in your attitude to  
 the people who come from the same  
 land that your ancestors came from.  
 Let patience have her perfect work  
 and you will find that the time there  
 would get along if you were dumped  
 into a Yorkshire manufacturing town  
 and sent to work in a mill, and ex-  
 pected to become a Yorkshireman in  
 five or six days.

Somewhere, soon, we have got to get  
 all Canadian citizens thinking about  
 the same thing. We have got to have  
 a common ideal about our country,  
 their country, speakers of broken-  
 English; owners, absolute owners of  
 Canadian soil, that they are  
 must be helped to become good Cana-  
 dians.

But what is a good Canadian? An-  
 swer me this—What do you mean  
 when you stand up and sing "God  
 save the King"? The King is on the  
 other side of the ocean, and you per-  
 haps are a thousand miles from salt  
 water. The King is on the other side  
 of the ocean, and you perhaps are a  
 thousand miles from salt water.  
 But what is a good Canadian? An-  
 swer me this—What do you mean  
 when you stand up and sing "God  
 save the King"? The King is on the  
 other side of the ocean, and you per-  
 haps are a thousand miles from salt  
 water. The King is on the other side  
 of the ocean, and you perhaps are a  
 thousand miles from salt water.

It is a mighty curious thing this  
 Canadian nationality in the progress  
 of which you have harassed yourselves  
 with the crowd of aliens to your ideas  
 who have come to the shore, the  
 all the corners of the earth. You are  
 sure about your own Canadianism.  
 But what about theirs? It is up to  
 you; for you asked them to come in,  
 you know.

Suppose you talk it over with those  
 Scotch and English fellows of your  
 acquaintance. And ask your Irish  
 friend to talk about it.

**What We Can**  
**Teach The Americans**  
 By ARTHUR HAWKES.

Can you teach your grandmother to  
 rock eggs? Can you teach your grand-  
 mother to knit? Can you teach your  
 grandmother to sew? Can you teach  
 your grandmother to cook? Can you  
 teach your grandmother to do anything  
 that she can't do now?  
 "I'm very sorry, Mr. Bluff," said ar-  
 gument judge to a lawyer who had  
 argued with him instead of arguing  
 before him, "but I can't teach you any-  
 thing."

"That is so, my lord," dryly replied  
 the lawyer, and sat down.  
 The Americans are more willing to  
 be taught than we suppose. They have  
 more to learn than they suppose.  
 Not many of them think they can learn  
 anything from Canada or Canadians.  
 To them the idea of learning from us  
 is about as sensible as the idea of an  
 elephant teaching a grass-hopper to  
 hop.

While a party of United States  
 editors was travelling to Winnipeg  
 from Chicago, the talk turned to  
 Canadian affairs and presently to  
 elections. Said one from Kansas:  
 "But they don't have elections in  
 Canada. The public officials are ap-  
 pointed from England, aren't they?"

The Kansas editor's idea was a little  
 typical. His countrymen regarded us  
 as going to say, as a poor reason-  
 ing, but we were scarcely in that  
 position. The nation was greatly ex-  
 pressed six months ago by the Wash-  
 ington Star, which said, "The native  
 Canadian is a public official, a  
 colonialist, a species of political outcast,  
 like the man without a country."

The American is a man who is a  
 habit of despising the state of  
 Canada, and of expecting that the  
 native Canadian would come to the United  
 States like a pile of filth to a mag-  
 net. Our neighbors could not under-  
 stand why we people could be so  
 amazed. Then they were dis-  
 pleased, and they put up a tariff wall  
 that was intended to bring us into a  
 political marriage with them.

That was when Canada of the St.  
 Lawrence valley had to winter wear  
 to Europe except through American  
 ports; and when only a few men of  
 the long hair and a prosperous  
 Canada, the acknowledged  
 leader of the younger commonwealths  
 of the British Empire.

Now that the reciprocity has come  
 to the United States, it is that if  
 they want union, we don't. The fool  
 that rocks the boat always forgets  
 that he is in a position to be  
 on that. The little fellow who is  
 told that he must choose whether he  
 will go with the water or with the  
 big fellow who personally did all he  
 could to thwart his business ambi-  
 tions, who chooses to go with the  
 big fellow in the belief that he is serving his  
 own permanent interests—well; it doesn't  
 hurt the little fellow to be at the  
 parting of the ways.

The American says, "Train with me,  
 Canada, my way. Never mind what  
 you have been making for yourself."  
 "What will you reply?" You can say  
 to him anything you like. If you  
 were Canada's spokesman this is  
 about what you would say:  
 "Form me to you the lesson  
 you teach him? When I was a national  
 infant I thought I needed your help,  
 and that without I could not live.  
 I was a child of a man. I wanted to  
 my goods to you. You turned your  
 back on me. You put many times  
 the price of my goods in my hands  
 and my kinsmen across the sea. I  
 did not know what I could do till I  
 met you."

"The last time I sent my representa-  
 tive to you to be came back with the  
 story of your own hardness, and with  
 the news of the sure foundation on  
 which my property could rest. He  
 came back with the news of the sure  
 foundation on which my property could  
 rest. He came back with the news of  
 the sure foundation on which my prop-  
 erty could rest. He came back with

## LOCAL AND GENERAL

Isiah McDougall left last Thursday for the Coast.

Miss C. Michener re-opened her class on Monday.

Miss Mabel Northey was a visitor at Mrs. Barnett's last week.

Miss Velma Turquist is spending a holiday with her parents at Evans.

Charles Sullivan, of Castor, was in Red Deer last week renewing acquaintances.

Miss Marriot, of Hamilton, is visiting at the home of Mr. and Mrs. F. H. Tallman.

J. A. Geissinger has sold his beautiful residence on Sixth Street North to Judge Lees.

Jas. Stewart, of the C. P. R. repairing staff, returned last week from a two months' trip east.

E. F. Hobden, of Montreal, general manager of the Merchants Bank of Canada, was a visitor here last week.

Miss Sadie Haughn returned to Wetaskiwin last week to resume her duties at the school after having spent the summer with her parents here.

A. J. Spencer left last week for Vancouver to visit his son. Mr. Spencer has been spending the summer at Sylvan Lake with his daughter, Mrs. F. J. Carscadden.

Wm. Sharp, of Pleasant Valley, had the misfortune to lose a fine new barn last week from lightning. The stock were all removed but one horse, and ninety tons of hay were burned.

Jas. Bower, President of the Dominion Council of Agriculture and of the U.F.A. of Alberta, left this week for Vancouver to attend a sitting of the Railway Commission regarding the C.P.R. freight rates.

We understand that A. H. Russell, barrister and crown prosecutor, was married to Miss Roberts at Calgary on Monday evening. Miss Roberts will be remembered as having been the guest of Miss Cowan last winter, when she made many friends in Red Deer. The news wishes the young couple a long and happy wedded life.

E. Bowes has accepted a position with F. Michener.

Best Bros. is the best place to buy furniture and home furnishings.

Just Arrived at Hamilton's: Lobsters, this season's catch. They are delicious.

Herbert Lobsinger, of Calgary, was a week end visitor, renewing acquaintances.

F. H. McLean, of the firm of McLean Bros., took a flying trip to Calgary last Thursday.

Mrs. Jarvis' millinery rooms are over Snell's jewelry store. The date of opening will be Sept. 11 and 12.

Mrs. M. J. Snell, and Mr. C. H. Snell and child were week end visitors, and were the guests of H. W. and H. J. Snell.

Miss Blanche Webb left Thursday for a couple of months' visit at Vancouver, where she will join her brother E. Webb, a former resident of Red Deer.

J. A. Latimer, general agent for the Cockshutt Plow Co., was in town last week and says the south crop, which is now being harvested, is a good one.

The Misses Brumpton left last week for St. Margaret's College, Toronto. They were accompanied by Mr. and Mrs. Brumpton, who will return in about a month.

What, shingles at \$2.50 a thousand at Jarvis? You bet. Lots of other snags. Must make room for new shipments of lumber just arriving No room in the yard.

The Rev. Herbert Gordon, of Strathecona, who has lately been appointed to succeed Rev. W. G. Fortune as Sec. Treas. of the Temperance and Moral Reform League, was in town last week.

The Scotchmen and All Coners played their second game of football on Monday night, the result being a tie, no goals being scored. The game was fast and even, though the Scotchmen were handicapped by being two men short.

## HEADQUARTERS FOR SCHOOL SUPPLIES

We can furnish the scholar with every requisite for school use, at moderate prices

We have a full line of Text Books for every grade

Ask for a Price List

The Gaetz-Cornett Drug & Book Co., Ltd.

Best Bros. do picture framing, and do it right.

Rene Le Marchand, of Edmonton, was in town on Monday.

Judge Biggs, of Louisiana, was a visitor to town on Monday.

H. H. Humber and family are spending a holiday at the lake.

What, oh! Jarvis' ship! \$16.50! Surely not! Well, call and see.

T. A. Gaetz and a party of friends were out hunting on Monday and killed a lot.

Don't forget the band concert on Friday night. Ed Welton will wield the baton.

Dr. and Mrs. Church, of Calgary, were the guests of Dr. and Mrs. Plummer for the week end.

Joseph Wallace, J.P., who has been spending the summer in the east, is expected back this week.

Douglas McCuaig, of Medicine Hat, was a passenger on Sunday's train on his way to Edmonton.

Miss Cowan returned from Edmonton on Saturday after spending a pleasant holiday with friends.

Mrs. Stacey, of Dauphin, Man., and Mrs. Stacey, of Victoria, B.C., are the guests of Mrs. M. Jarvis.

If you want something nice, try a can of lobsters with a cartoon of Hamilton's Zephyr Pilot Biscuits.

Mr. Stephenson, a brother of Mrs. Cottingham, paid the Captain and Mrs. Cottingham a flying visit last week.

Mr. and Mrs. Joseph Cole leave on Saturday for a trip of several months' duration to friends in Ontario.

J. H. W. and H. J. Snell went out to the lake on Monday to spend the week with their families who are in camp there.

M. J. McLean arrived last week from Charlottetown, P.E.I., to take charge of the repairing department at H. H. Humber's jewelry store.

Miss Kathleen Ramsey, of Wetaskiwin, passed through on Sunday's train on her way home from Manitoba, where she has been spending the summer.

The Women's Auxiliary of St. Luke's church will hold a tag day on September 15th. Proceeds to go to the building of the new parish hall.

Mrs. Jarvis will open her fall display of millinery one door east of her old stand, over H. J. Snell's jewelry store, on Monday and Tuesday, Sept. 11th and 12th.

One thing we have to thank the elections and reciprocity for, and that is, that the Ne Temere Decree has taken a back seat and is apparently forgotten.

Miss Maude Hartrey arrived from the east on Saturday and took up duties at the school on Monday. Miss Hartrey was at Wetaskiwin last year at Alexandra school.

Next Sunday being the Sunday preceding Labour Day, the Rev. Robert Pearson will give a sermon on the labor question at the Gaetz Memorial church at the evening service.

"Western Progress," the C.P.R. publication, has given Red Deer a lot of publicity, and they have in this month's issue a paragraph referring to the new pamphlets lately got out by the Board of Trade.

Bavlinheimer & Sons are building a double brick store in North Red Deer, where they intend opening out a branch of their meat business. Another of our local merchants is putting in a stock of general merchandise.

A meeting of the Independent Order of Foresters will be held in H. G. Stone's office this Wednesday evening at 8 o'clock to discuss general business. H. Erskine, of Calgary, District Supreme Ranger of the Order in Alberta, will be present and address the gathering. All members of the Order are earnestly requested to be present.

The Grand Trunk Pacific are in receipt of a re-issue of their attractive pamphlet entitled "Visitas," in which are included several new views, amongst others a beautiful cut of their new station at the foot of Broadway in Winnipeg. One of these booklets may be had on application to Mr. W. J. Quinlan, District Passenger Agent, 260 Portage Ave., Winnipeg.

"Little" Donald F. Kerr left on Monday evening for an extended trip south for his health. He will be much missed in social and political circles, being one of the strongest supporters of reciprocity we ever met. A large and sorrowful group gathered at the station to bid him adieu on his arduous trip, all hoping to see him again in the near future with better health than he has enjoyed lately.

The "Toy" press at Rocky Mountain House gave the News an awful cutting down over an item we printed lately regarding the "Toy" railway, as they are pleased to call the A.C.R. They finish their tirade by inviting the News out to look over things and ask us to come by train over the C.N.R., which is called, by the farmers who live near it, "The Bracon, Rattle-Dazzle, Corkerew Limited." We will go as soon as trains are running, which is not yet.

Mr. Charles Richards, of Watford, who has been visiting his aunt, Mrs. G. H. Bavlinheimer, for the past three weeks, left on Monday's train for a short trip to the Coast before returning to his home. While here he assisted Mr. Rainey with the International Harvester Co's. business and, in travelling through the country, met several of his old friends and customers from Ontario, who are well satisfied with this country. Mr. Richards thinks he may return to Red Deer to make it his home in the near future, as he was favorably impressed with our town and district.

If you like lobster salad, get some lobsters at Hamilton's. This season's catch.

Best Bros. have a splendid showing of iron and brass beds, also some of the latest designs in new wood beds.

The Citizens' Band will give another concert on Friday night. Be on hand and don't be so stingy with your applause.

Mrs. G. W. Greene and children returned on Monday from the lake, where they have been spending a month's holiday.

Mrs. Dr. Callison gave a reception yesterday afternoon to the Misses McMechan, who are cousins of Mr. J. A. Youmans.

Watch these columns for Mr. A. P. Olsen's sale the last of October. He has some full blood Shorthorns and some extra good horses.

The Misses McMechan, of Toronto, who have been visiting their brother, Victor, McMechan, at Willowdale, came in on Sunday, and are guests of Mr. and Mrs. Youmans.

Doc. Parsons big auto was stuck on the hill north of town yesterday, and he didn't want us to say anything about it. So mum's the word; horses can't draw a word out of us.

The Rev. Mr. Fay, F.R.G.S., a traveller and missionary with a most interesting and informing message from South America, will preach next Sunday morning in the Methodist church and in the evening in the Presbyterian church.

Publicity Commissioner Davidson has been placing a lot of farm hands lately, and if you are seeking one, you will do well to call. The majority of these men are experienced farmers and are looking for locations for themselves. Just now Mr. Davidson is anxious to place two married men with their wives, also one agricultural engineer.

Robert Leithead, Horn Hill, started cutting his barley last Saturday, Aug. 26. Bob is generally an early bird. A large number of farmers are now busy cutting their fall wheat and barley, and the crop is the heaviest for years. The harvest will, however, be late, as there are a great many fields of oats not beginning to turn as yet.

Settlers have been complaining of late of losing horses. It looks like a case of the country. Well it looks like that, though there might be an organized gang of horse thieves operating in this district. The police are becoming active, and any person detaining horses without giving good and sufficient reasons, should be compelled to explain his action to the entire satisfaction of the police.

Settlers who have found their horses in the hands of some people have found it difficult to obtain possession of them again, and have been put to a great deal of annoyance.

Rev. Canon Hinchcliffe, of Chilliwick, B.C., has been spending the past week with friends in Red Deer. Sunday evening he preached in St. Luke's church to a large congregation. He is on his way, as a representative of the Provincial Synod of B.C., to attend the General Synod of the Episcopal Church of Canada, which meets at London, Ont., next week. In his sermon he mentioned the fact that he had been the first English church service in Red Deer in 1899, and there were just twenty persons present. He did not think there was a single one of those twenty persons before him as he spoke. He said he spoke once more in his old church with conflicting feelings of pleasure and pain. Pleasure at once more being in the building that he loved so well, that he had helped to build, every part of which he had handled himself; and pain that old faces he had known he missed, and would see no more in this world. He preached a splendid sermon and was listened to with great attention to the end.

TO TRADE.—Owner of improved quarter will trade for unimproved land or town property. Apply to P.O. Box 252. Aug. 30, 1w.
